### ***2012 Partnership/Sponsor Agreement***

In 1982, the Manitoba-North Dakota Zero Tillage Farmers Association was formally organized at a workshop in Minot, ND. Since that time the Association has proven itself as a leader in the promotion of Zero Tillage Production Systems, not only in the United States and Canada, but the entire World. Our organization is a non profit corporation, producer organization.

The three main objectives, as stated at the originating workshop, still form the foundation for the Associations programs today.

These three objectives are:

- To facilitate the exchange of ideas
- To encourage zero tillage research
- To disseminate zero tillage information

The association pledges: "to preserve our agricultural soil resources for future generations by promoting a system of crop production which drastically reduces soil erosion and builds up organic matter."

Partnerships with various corporate, government and organizational partners have helped produce and distribute over 100,000 copies of the Association's two production manuals, around the world. The Annual Workshop and Trade Show, the Association's main forum for the dissemination of zero tillage information, would not be possible without the support of the Association's Partners. The Association maintains a web site with the latest Zero Till information.

**A *Partnership*** with the Association will

- Demonstrate your commitment to sustainable crop production systems in the Northern Plains
- Help producers be successful adopting zero till systems
- Help provide a learning medium for producers, researchers, and the public to understand the benefits of a zero till system on water quality, soil erosion, soil health and sustainable food and energy production for generations to come.
- Provide general support for all of the activities and programs of the Association.

**A *Workshop and Trade Show Sponsorship*** with the Association will

- Provide general support for the Associations Annual Workshop and Trade Show.

We have added complimentary registrations to the Gold and Platinum Partnership and complimentary booth to the Platinum Partnership.

Your consideration to support our organization is greatly appreciated.

/s/ Mike Zimmerman, President  
Garrison, ND
